4	Results	Synopsis
5	Conversion Funnel	the conversion funnel shows that 29 04% of customers who viewed the product page put an item into their shopping cart, and out of those people in the shopping cart, 35.61% of them made the purchase.
6	Retention Rates	the retention rates shown provide insight that over time less people were making purchases after their initial purchase, where 2020-09 had the highest retention rates and months purchased and customers in 2021-02 made no purchases after their initial purchases.
7		
8		
9	Analysis	Description
10	Raw Data	the raw data provided to us was collected from 2020-09 to 2021-02 and showed how many customers viewed the page, added an item to their shopping cart, and made purchases. the data was collected when people would interact with the website
11	Conversion Funnel	when examining the raw data we used the count of unique users to show how many people different individuals were on the website, how many of those from the website added an item to their cart, and the number of them that made the purchase a
12	Retention Rates	the retention rates were based off of the cohorts created. the cohorts were formed into groups by months purchased, we tracked these cohorts over 4 months after their initial purchase to see how many made purchases in the following months and visit the second of the cohorts over 4 months after their initial purchase to see how many made purchases in the following months and visit the second of the cohorts over 4 months after their initial purchase to see how many made purchases in the following months and visit the following months after their initial purchase to see how many made purchases in the following months and visit the following months after their initial purchase to see how many made purchases in the following months after their initial purchases to see how many made purchases in the following months after their initial purchases to see how many made purchases in the following months after their initial purchases to see how many made purchases in the following months after their initial purchases the following months after their initial purchases to see how many made purchases in the following months after their initial purchases the following months after the follo
